Owens Popular TranSender Line Now Available for Older Vehicles

Sturgis, MI (December 14, 2010) Owens Products, Inc., known for their sleek running boards with applications for pickups, vans, SUVs, and CUVs, announces availability of older vehicle applications in the TranSender line.

“We were receiving requests for older vehicle boards,” explained Gary Kirtley, CEO and Owens Products owner. “Our TranSender line has become one of our most popular board choices so we made the decision to serve that market with this particular style.”

Available in four distinctive choices—ABS molded with step tread, TPO molded, extruded aluminum in bright or black with ABS end caps, and diamond tread with ABS end caps—the TranSender is designed with rugged styling in mind. The ABS and TPO molded boards are reinforced with a full step length galvanized steel support.
